

Planète 2000 and 2000 ES ADR CGLine+
Anti-panic lighting for high-ceiling premises

Applications:
Anti-panic lighting for high-ceiling premises, storage halls, gymnasiums, workshops, walkways and outdoor stairways.

Ideal for the food-processing industry (polycarbonate optics)

www.marque-nf.com

100% LED projectors
Express installation

Key benefits

- Intensive beam (integrated light diffuser)
- No lamp replacement
- Can be used in ADDRESSABLE mode, ADR and CGLine+ protocols
- Low consumption
- Polycarbonate optics
- Better visibility
- Quick reading
- Easier installation: weight halved
- Keyhole fixing
- IP 42 version: 5 cable entries
- Watertight IP 65 version: 3 cable entries + supplied with cable gland
- Recessing frame
- Mounting in any position

Technical characteristics

Flux	1000 / 2000 lm
Test system	SATI automatic test, compatible with ADR and CGLine+ systems
Housing	
Mounting type	Mounting in any position
Material	Polycarbonate - aluminium
Colour	Light grey RAL 7035
Protection ratings	IP42 / IK07 (ES: IP65)
Connection	Keyhole fixing
Power supply	220 - 240 Vac 50/60 Hz
Ambient temperature range	5°C to 40°C
Battery	Ni-Cd
Light source	LEDs
Dimensions	Housing: 400 x 243 x 107 mm (277 with projector)
Class	II
Weight	4.5 kg

Order codes

Product	Reference	Function	Standby and emergency lamps	Autonomy	Flux (lm)	Battery	Consumption
